Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Kawachi (JP363089348).

As to Claim 6, Kawachi teaches in Fig. 1 a roll-shaped printing medium, 1, comprising a printing surface, Fig. 2 item 2, on which images are to be printed, "A"; in the Abstract and in Fig. 2, Kawachi teaches a printing portion that is releasable adhered, 2, and a release portion, 3, for holding the adhered printing portion, 2, where the printing portion, 4, has been cut off, by a process of half-cutting as read in the Abstract, in advance along the conveying direction of the image printed by the printing means, Fig 1, at an interval corresponding to a dimension (size) of the image in a width direction perpendicular to the conveying direction, Fig. 1, and wherein said roll, 1, has another portion, a, wherein the printing portion is not partially cut off, section a, in a width direction perpendicular to the conveying direction.

Response to Arguments

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., a printing apparatus and half cutting mechanism) are not recited in the rejected

Art Unit: 2854

claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). What the applicant is arguing on page 4, paragraph 2, is not recited in the claim language. Currently, the claim is directed to a printing roll that has a printing surface; a portion of that printing surface being adhered to a releasable layer, where the portion of the roll has the printing portion partially cut off and portion of the roll that does not have a portion of the printing surface cut off. There is no structure recited in the claims that is directed to a half cutting mechanism or printing device. Therefor the reference Kawachi reads on a roll as described above in the rejection of claim 6.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
